A Talk in Honor of John Herzan
On His Retirement from the New Haven Preservation Trust

by Rick Wies
Advocate and Architect
Partner at Gregg Wies & Gardner Architects
Designer of the new Canal Dock Boathouse

A two-decade long, $37 million project in mitigation of the loss of the old Yale boathouse under the Pearl Harbor Bridge, the Canal Dock Boathouse on New Haven Harbor will open this summer.

The talk will explore a story of tension, collaboration, defeat, and eventual success as architects, city officials, contractors, and local campaigners worked to preserve reminders of the past in a modern boathouse that will serve as a distinctive community space.
