

Tide & Weather App Suggestions

Weather Underground – Below is how the app appears when installed on your phone. Make sure to refresh the app each time you use it to receive the local and most up-to-date New Haven forecast.

Hourly wind data, for both direction and strength are very handy, but should not be considered to be 100% accurate. Always do a visual check of the conditions in combination with using a weather app to confirm the most accurate and up-to-date assessment possible.

Tides Near Me – Below is how the app appears when installed on your phone. Make sure to refresh the app each time you use it to guarantee that you receive up-to-date, local New Haven tides. The “New Haven Tide Station” is only .97 miles from the boathouse.
